DASHING GAME

Of Basketball Played At High School
Auditorium Last Night Between
Maysville and Newport Girls—
Game Resulted In a
17 To 17 Tie.

The most exciting basketball game
that has been witnessed in Maysville
for a long time took place last night
at the Maysville high school, when the
match game between the girls' team of
the local high school and a speedy five
from Newport resulted in a tie, 17 to 17.
This Newport team has won the cham-
pionship of Cincinnati and its vicinity
and the fact that it was the first game
of the season for our home girls gives
the Maysville high school team a high
ranking for athletic honors. Misses

Miss Matthews Played a Stellar Game
As Guard For Maysville.

Clark and Matthews, as guards, were in
the game from start to finish, success-
fully blocking and breaking up the
machine-like team work of their oppo-
nents. Misses Ball and Peed as for-
wards won repeated applause for their
goal tossing; Miss Jones as center bids
fair to become a tower of strength on
the local team because of her size and
aggressive playing. The Newport team
as a whole did stellar playing, but Miss
Heckle registered most of the points
for her five. Altogether there was not
a moment when the interest of the spec-
tators had an opportunity to lag.

The lineup was as follows:
Maysville. Position. Newport
Jones. Center. Kissell
Clark. Left Guard. F. Rummell
Matthews. Right Guard. O. Rummell
Peed. Left Forward. Heckle
Ball. Right Forward. Meddowcraft

The number of points scored by the
individual players was as follows:
Maysville—Jones 4, Matthews 2, Peed
7, Ball 4.
Newport—Heckle 13, Meddowcraft 4.

The Newport party was composed of
the Referee Hamrill and wife, De-
puty Sheriff Jule Plummer and wife,
Misses Leila Heckle, Norma Kissell,
Garnet Meddowcraft, Olga and Frieda
Rummell, Loretta Deininger and Hazel
Maddox.

The girls are being entertained by
the local high school girls. The en-
tire party will return home this after-
noon.

LEXINGTON

Gets Republican Platform Convention—
Date, Tuesday, June 15.

Louisville, February 12.—The Repub-
lican state platform convention will be
held in Lexington on Tuesday, June 15.
The county conventions to select dele-
gates to the state convention will be
held on June 12, being the Saturday
prelous.

The selection of Lexington for the
state convention was reached by the
vote of eight to five in the meeting of
the State Central Committee here this
afternoon.

Louisville was the only other contest-
ant for the convention.

GO TO CHURCH SUNDAY.

John Wanamaker addressed a church
meeting the other day and said, "You
spend too much time fussing with pro-
grams, speeches, meetings and move-
ments. You will win greater success
if you adopt some of the methods used
by Billy Sunday, the evangelist."

Then Mr. Wanamaker went on to
characterize the usual religious service
as too "long and dry."

Mrs. Gordon Gilmore, who has been
seriously ill at her home in East Sec-
ond street, is still confined to her bed
and is very weak, but is slowly improv-
ing.

BIRTHDAY PARTY AT FIRST DIS- TRICT SCHOOL.

Yesterday was the 106th anniversary
of the birth of Abraham Lincoln, and
incidentally it was the eighth birthday
of William Lincoln Ellis, the bright and
intelligent son of Mr. and Mrs. Homer
Ellis of West Second street.

About 3 o'clock yesterday afternoon
Mrs. Ellis sent ice cream cones and
a big birthday cake lighted with eight
candles, to the pupils of the second and
third grades of the First District school,
and after the afternoon session was
over a real birthday party was enjoyed
by the scholars and their teacher, Miss
Virginia Mae Iurd.

After a merry time the pupils depart-
ed for their respective homes, wishing
William Lincoln much happiness and
good luck and hoping that he might
have many more birthdays to celebrate.

Popular Fea- tures of the Linen Sale

THE SONG THAT BECOMES A DIRGE.

Ever hear the tune of Tipperary? Everybody has. Not only in this country, but all of the world has heard Tipperary. It is a jolly old lilt and it stirs the heart, but how many hearts will grow sad on account of this same song?

When we think of the boys from the bogs, marching sturdily forth bidding Nora and Biddy goodbye, and marching to fight the Germans, the song becomes a dirge.

It's "goodbye Tipperary," for many a good lad that left his job in the Emerald Isle digging turf and "tendin'" the cows, and—well—an Irishman never had any sense anyhow.

That is, the kind that will go and fight another nation's battles.

I'm an Irishman myself, but I'm neutral.—Jim Canaway.

SPLENDID ADVICE.

Advising its readers how to invest their money to make sure of their income at crucial times like the present, the World's Work, edited by Walter H. Page, United States Ambassador to England, says:

"For the average investor who seeks a safe and ample income, and who cares little about knowing at what price his fund might be liquidated at any given moment, the best opportunities are now, as indeed, they have always been, among the quiet, unlisted securities which are not sold every day in the market place."

A Washington dispatch says that "Secretary of the Interior Lane has already mapped out a comprehensive program of legislation for the next session and the next Congress, designed to give American capital every proper inducement to engage in the development of the country's resources." Business men can see what is in store for them under free trade control. Congress has been at work for eighteen months on such "a comprehensive program of legislation," while business has suffered accordingly. If it is the plan to continue it, business men may well pray for deliverance.

Except in such cases as handling mail or bundles of newspapers, packages hereafter will not be thrown from trains of Cincinnati, Hamilton & Dayton railroad, the new rule being part of the "safety first" campaign through which it is aimed to avoid injuring railroad employees or the public by being struck by such parcels.

Statistics compiled by the United States Department of Commerce show that there has been an increase of something like 300 per cent in the exports of foodstuffs from the United States over those of a year ago. These are bringing prices that raise the export figures to nearly 400 per cent for January.

The first shipment of fruits and vegetables ever carried from San Francisco to New York under refrigeration, via the Panama canal, has been made, and the outcome is considered by fruit and vegetable producers to be satisfactory.

Isn't it rather in the nature of a paradox that Charles G. Emery, wealthy tobacco manufacturer, willed his grandson \$50,000 on condition that he did not use tobacco until he was 30?—Burlington Hawkeye.

A New York company has placed orders for over 50 automobiles and over 80 turret lathes, all in Cleveland, O., and over 30 engine lathes in New England.

FOOLISH PHILOSOPHY.

Tell a secret to your friend and you tell it to your friend's friends.

It's when a fellow loses everything else to us in a poker game that he wins our sympathy. You can never tell. It is possible for a man to be a model husband and a good fellow, too.

The dancing man must be graceful, but that doesn't prove that the ones who don't dance are disgraceful.

If you always got what you deserved where you deserved it, your neck would hurt half the time.

Sometimes being the head of the family means getting up early and starting a fire for the unimportant members to warm by.

Our studies of anatomy are limited, but we know that if it is a man he has two legs and two arms; if a woman, she has four limbs.

HIGH COST OF LOAFING.

Problems pertaining to the unwillingly unemployed bring to serious attention the high cost of loafing.—Washington Star.

A NATURAL AFFLICTION.

Packers Don't See Lower Prices.—Headline. They never do. They were born blind in that eye.—New York World.

BUT A FOUR-LEGGED STOOL BEATS IT.

"We shall one day all recognize capital, labor and business ability as a three-legged stool."—Andrew Carnegie.

GETTING CLOSER.

Germany carries the war into Maine.—Boston Herald.

European agents plan to spend \$2,000,000 for Texas horses and mules. Thirty thousand horses and 12,000 mules have already been purchased for shipment to Germany.

In foreign exchange circles it was said that the \$2,500,000 gold imported from Canada was but the beginning of a movement that might in the total aggregate \$10,000,000.

Der Kaiser's interpretation of his much used words, "Morale" and "Kultur," should cause Noah Webster to arise from his long sleep and revise his dictionary.

The United States Steel Company's decision not to reduce the wages of their 140,000 employees means added prosperity throughout the steel industry.

With thousands of men idle, it is hard to figure how thousands of eastern Ohio miners could have picked a worse time to strike for higher wages.

Four million eggs, valued at \$80,000, the largest single shipment ever sent from this country, left Boston for London on the steamship Anglian.

Wheat exports for the year 1914 were 7,034,500 bushels, against 5,043, 683 last year. The selling price was 20 per cent higher in 1914.

Another preacher has just discovered that clean living is best. Little late for a smart man.

No Joke.
"My wife gave a reception yesterday."
"Did you attend?"
"Yes. I played a practical joke on her. I got in line where she was receiving and before she knew it she was smiling and saying she was glad to see me—for the first time in three years."—Denver Post.

A Necessity.
Maudie—Do you enjoy the new dances?
George—I would, I think, if some one would get up a new skid shoe for me.
Nell—"She has an automobile tongue."
Belle—"What do you mean?"
Nell—"Oh, she is always running other people down."

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains and more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

NEW YEAR FOR CHINESE.

New York, February 13.—According to the old Chinese calendar today is the beginning of the year 4915, dating from the establishment of the Ming dynasty. When, five years ago, the ancient regime in China was overthrown and a republic established, the new government ordered that the western method of reckoning months and years be adopted. This order for the adoption of the Gregorian calendar, used by most of the great nations of the world, was hailed as a significant step in China's advance toward modern civilization. Apparently, it was too big a step for the most of the Chinese people to take, for from all reports the bulk of the people continue to cling to the old method of reckoning the days of the year by the lunar calendar.

DUNDEE AND MANDOT READY.

New Orleans, La., February 13.—Johnny Dundee and Joe Mandot are down to weight and ready for their 20-round bout to take place here tomorrow. The match is considered one of the most important that has been pulled off here this winter. The city already is filled with Mardi Gras visitors and Promoter Tortorich, at whose club the fight will take place, expects a record-breaking crowd to witness the mill.

CIVIC PROGRESS AND SOCIAL SERVICE.

Within a comparatively brief period, Cleveland, O., has expended \$15,000,000 on public improvements.

A police head in European cities must be specially trained for his work as a physician, lawyer or machinist requires training here.

Zinc meat inspectors are employed by the city of Cincinnati, O., in the inspection of its slaughter houses and meat markets.

Benton Harbor, Mich., has a standing offer to new factories seeking location, agreeing to donate a factory site of one to four acres and two-thirds of the cost of factory buildings.

New York City has appropriated \$250,000 for the purchase of apparatus to be installed in a "model street-cleaning district" in the Borough of Manhattan.

The aggregate expenditure for public road construction in the United States for 1914 is estimated at \$285,000,000 or more than \$100 for every mile of public highway in the country.

Establishment of a state department of charities to take over all the charities and philanthropies now conducted in the state of private agencies with private funds, will be urged before the Texas Legislature this winter.

Since Wisconsin offered to send books from the state libraries into the rural districts by parcel post, it has received requests for treatises on baseball, animal culture, mushrooms, weeds, dairy farming, France, fiction, Germany and the next war. The first applicant wanted a volume on Walter Johnson.

DIFFICULT TO REMIT MONEY TO EUROPE.

Washington, February 13.—Thousands of residents of this country are trying in vain to get money to relatives in Europe. The State Department is called upon to aid in the remitting of money to points in Russia, Austria, Turkey, parts of France and even in the Balkans. In each case it is necessary to advise that money can be remitted through the State Department only to American citizens who need the money to pay the expenses of their return to this country. Under other circumstances it would be a violation of American neutrality to remit money through diplomatic channels. The banks, of course, may make remittances to private individuals anywhere, but owing to the uncertainty of communications and the danger of confiscation, this method is not sure. Many banks are refusing to issue drafts on places within the war zone. Many aged persons in Europe who have been supported by children in this country are said to be suffering from lack of the regular remittances. In most cases it has been absolutely impossible to get money to them and what is worse, the State Department sees no way of relieving the situation.

CHURCHES TO OBSERVE PEACE SUNDAY.

New York, February 13.—In churches of many denominations, throughout the United States, Canada and Great Britain, "Peace Sunday" will be observed tomorrow, as one of the features of the celebration of one hundred years of peace among the English-speaking peoples. The movement was inaugurated by the Federal Council of Churches of Christ in America, which embraces in its membership more than 30 different religious denominations. It is expected that the day will be observed by the delivery of peace messages from 100,000 pulpits. Peace programs also will be part of the day's exercises in Sunday schools and young people's societies all over the nation.

MAY PROVE FATAL

When Will Maysville People Learn the Importance of It?

Backache is only a simple thing at first.

But if you find 'tis from the kidneys.

That serious kidney troubles may follow.

That dropsy or Bright's disease may be the fatal end.

You will be glad to know the following experience.

'Tis the statement of a Maysville citizen.

Mrs. Della Lunsford, 328 E. Front St. Maysville, Ky., says: "I attributed kidney trouble to a strain. I had sharp shooting pains through my kidneys and a dragging down feeling through my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy and in a short time I was suffering from that trouble. My feet began to swell and my hands were at times the same way. At night I was restless and always felt tired. I read of a similar case being cured by Doan's Kidney Pills and I got a supply. Before long I was completely and permanently cured. Doan's Kidney Pills saved my life. I am glad to confirm my former endorsement of this remedy."

NEWS FORECAST FOR THE COM- ING WEEK.

Washington, February 13.—Presi-
dent Wilson has been invited to attend
the annual memorial exercises in honor
of the dead of the battleship Maine,
which will be held in Arlington national
cemetery on Monday, the anniversary
of the blowing up of the vessel in Ha-
vana harbor. It was the original in-
tention to hold the dedication of the
Maine memorial on that day, but a de-
lay in the completion of the work
has caused the event to be postponed
until spring.

Public hearings on freight rate in-
creases proposed by railroads west of
the Mississippi river, which were sched-
uled to begin in Chicago Monday, have
been postponed to March 4, according
to announcement made by the Inter-
state Commerce Commission.

The one hundredth anniversary of the
ratification of the peace treaty be-
tween the U. S. and Great Brit-
ain is to be observed in St. Louis Tues-
day by the unveiling of a sculptured
Allegory commemorating the centen-
nial.

On Saturday the eyes of the nation
will be turned toward San Francisco,
where the Panama-Pacific International
Exposition, the gigantic world show
prepared in celebration of the comple-
tion of the Panama canal, will be open-
ed for an engagement that will continue
until the last day of the year. In addi-
tion to the inauguration exercises at
the exposition grounds, it is proposed
to hold brief ceremonies in the rotunda
of the Capitol in Washington, at which
President Wilson is expected to make a
brief address and give a signal for open-
ing the fair.

Governors, mayors and heads of com-
mercial organizations from Mississippi
Valley states will be in attendance at a
river terminal conference to be held in
St. Louis on Thursday and Friday. The
formation of an organization, which
will build up river traffic and bring
about a unification of wharfage and
terminal facilities is one of the main ob-
jects of the conference.

Other gatherings of the week will in-
clude a Laymen's Missionary conven-
tion of the Southern Presbyterian
church, at Charlotte, N. C.; a conven-
tion of the Western Fruit Jobbers' As-
sociation at Los Angeles; a convention
of the National Brick Manufacturers' As-
sociation at Detroit; and the annual
convention of the National Beekeep-
ers' Association at Denver.

WASHINGTON LETTER

Cocky Jingles Busy and Want War—
The President Level-Headed—Old
Col. Phil I. Buster Right
On the Job.

Washington, February 13.—Ger-
many's decree placing the waters
around the British Isles in the war
zone, which is announced to come into
effect next week, continues to excite
much attention in official circles here,
notwithstanding the declaration of the
German embassy that Germany "does
not intend to molest or seize American
vessels laden with foodstuffs for the
civilian population of enemy coun-
tries."

There are few jingles in the present
Congress. Government officials from the
President down are using every effort
to encourage conservatism. There is no
danger of hasty action on the part of
leaders. Nevertheless the feeling pre-
vails that the sinking of any American
vessels by any one of the belligerent
European powers would be a matter of
grave concern to those who are anxious
to keep the United States out of war.

The present attitude of the country is
being used as an argument by those ad-
vocating a greater degree of military
preparedness. "When it comes to cock-
iness there is no equal of the United
States," one Senator declared in this
connection. He regrets this tendency
on the part of the people of the United
States and maintains that since it is
a well defined attribute that we can-
not afford to be unready for war on
short notice.

One of the peculiar features of the
present situation is that a nation-wide
sigh of relief went up six months ago,
when it was realized that the world was
at war and the United States was en-
tirely neutral. Now there appears to be an
absence of any idea of temporizing if
the slightest disrespect is shown our
flag or our commerce.

Three votes have not killed the Im-
migration bill. There is evidence that
the issue is to come up again at the
earliest possible moment. While the
question never has been voted upon by
the people, it always has been consid-
ered that their representatives in Con-
gress reflect their sentiments accurately.
Due to the publicity given each side of
the question as a result of the recent
discussion of the measure in the Sen-
ate and the public hearings conducted
by the President, followed by the fail-
ure of the House to pass the bill over
the veto, the country is well informed
as to the arguments presented for and
against the measure. Whether the
United States is to be open to practi-
cally all classes of immigrants or wheth-

er the time has been reached when se-
lections are to be made are questions which
have reached a stage that a definite
policy is demanded of the government.
Each side has powerful supporters and
imposing arrays of arguments have
been presented. Many believe that the
political platforms next year will be
obliged to take notice of the issue.

Twice within recent months the will
of the majority has been thwarted in
the Senate by a filibuster. The minor-
ity by talking against time has kept
questions from coming to a vote and
has forced the majority to make sub-
stantial concessions. At the last ses-
sion of Congress Senator Burton, assist-
ed by Senator Kenyon, forced the ma-
jority to abandon the River and Har-
bor bill. The measure carried \$54,000,
000 in appropriations. Had the bill come
to a vote it would have been passed by
a safe majority. Senator Burton ob-
jected to some of the items of the bill
and with the aid of Senator Kenyon
kept the measure from coming to a vote.
As the end of the session was nearing
the friends of the measure had to com-
promise and a lump sum of \$20,000,000
was appropriated instead of the sched-
uled \$54,000,000.

The more recent filibuster against the
Ship Purchase bill presented a difficult
task. The end of the session was more
than a month away. To be successful
the filibuster crew had to hold the floor.
This was made difficult by the majority,
which would vote to recess rather than
adjourn, thus continuing the legislative
day and making it impossible for the
same Senator to speak more than once.
This lead to record breaking speeches,
so far as length is concerned. Many
Senators showed great physical endur-
ance by holding the floor and contin-
uing their remarks for many hours. Ow-
ing to the large number of Senators fa-
voring the filibuster it could have been
continued perhaps until March 4. Divi-
sion in the ranks of the Democrats,
however, made such a feat unnecessary.

Secrecy has fallen into great disre-
pute. Publicity is being resorted to as
the cure for troubles that have bot-
tered the nation since its foundation.
This was brought out in a recent speech
by the President. He referred particu-
larly to big business but there is evi-
dence here that many other things are
being done in the open that formerly
were conducted under bushels.

There are few who disagree with the
President in his belief that the public
lost confidence in big business
largely because of a short-
sighted policy of secretiveness. The same
charge could have been made against
many institutions that were not big.
There has been a gen-
eral tendency on the part of banks,
large and small, to avoid giving out any
information as to how their business
is being conducted. Many individual
business men are inclined the same way.
Judging from the information gathered
by the President and others the folly
of this course is becoming apparent to
all. It is said that newspaper men now
are welcome visitors at some Wall
street offices, where in the past the
doors were closed against them.

The remarkable amount of good that
has been accomplished by the Federal
Food and Drugs act has led to a great
demand for similar legislation in many
of the states. One of the features most
in demand, as indicated by inquiries at
the Bureau of Chemistry, is the provi-
sion for stating the quantity of con-
tents of package food products upon the
container. While this is required of
goods shipped in interstate traffic, many
states have no such provision to govern
articles produced and marketed within
the state. There is also a demand for
better Federal and state laws relating
to drug control.

ADVICE ABOUT VICE.

H. P. writes: "Would smoking one
box of cigarettes a day have any ill
effect on the nervous system of a wo-
man 40 years old?"

The answer is in the affirmative.
Had you asked me if the effect would
be serious I would have answered prob-
ably not. Don't you think a woman
who would take up cigarette smoking at
40 ought to have her head examined?

CULTIVATION OF LIVING TISSUES OUTSIDE THE BODY.

The story of the cultivation of tissues
outside of the living body has already
been told. Though we can still easily count the time in terms
of months rather than years, the fact
has been established so conclusively and
the technique developed so successfully
that the cultivation of tissues in this
way has already become a familiar prac-
tice in many laboratories.

Not long ago Carrel of the Rocke-
feller Institute for Medical Research
called attention to the condition of a
piece of connective tissue kept in a con-
dition of permanent life. It was de-
rived originally from a piece of heart
from a chicken embryo. The fragment
pulsated for 104 days and gave rise to a
large number of connective tissue cells
which have since multiplied actively.
It has now been kept alive artificially
for 29 months, according to the Jour-
nal of the American Medical Association,
and shows greater activity than at
the beginning of that period, and is
no longer subject to the influence of
time. If we exclude accidents these
connective tissue cells may live indefi-
nitely.

The mother of Tom Tinker, who was
lynched by a mob at Mayfield for the
killing of Constable Dick Hart, refused
to care for his body and it was buried
on the county poor farm.

DO YOU WANT A FARM THAT YOU CAN MAKE MONEY ON? IF SO, YOU INVESTIGATE THIS ONE.

Mr. George E. Himes of Lewis county
has placed with us for sale two farms
that adjoin. One, a farm of 170 acres,
the other 50 acres. The 170-acre farm
has on it a two-story, seven-room frame
house in good condition, tobacco barn
40x60, stock barn 36x36, usual out-
buildings. The 50-acre farm has a
small house of four rooms, tobacco barn
this farm. Both places have good or-
chards, 25 acres of bottom land with
chards with a variety of fruit. Mr.
Himes' reason for selling is he is get-
ting along in years and does not want
the responsibility of looking after a
large farm. If you are not afraid of
work you can make good on this farm.
Price for both farms, \$4,500.

WAR MOVIES SHOCKING

Sights They Reveal Tell of Awfulness of Great War.

Among the motion pictures of the war that have arrived in New York there are thousands of feet of films that will never be exhibited to the public for the reason that they are too shocking. In getting these pictures the photographers were compelled to undergo the greatest hardships and dangers, doing their work in most cases in the open, exposed to rifle bullets and shrapnel. In some instances armored cabinets were used for the protection of the photographers, while in others the cameras, fitted with electric batteries and controlled from a distance by electric connections, were mounted in trees. Even with these precautions it was practically impossible to get close range views of actual fighting.

CINCINNATI TOBACCO MARKET.
Cincinnati, February 12.—Offerings on the local burley leaf breaks Thursday aggregated 231 hogheads. All grades brought fairly good prices, compared with last week. Sales at the various warehouses were: Farmers and Shippers, 112 hogheads, range of price, \$4.50@17.25; Globe 91 hogheads, \$3.35@10.75; Bodmann's, 28 hogheads, range of price, \$3.50@15.
Louisville.
Offerings at all of the warehouses aggregated 1,155 hogheads, which was about all that could be handled in a single day. Of this, 40 hogheads were of black. The market is lacking snap, and sales are not moving as rapidly as formerly, but are prices as good. The offerings are averaging very low in quality; the percentage of bright tobacco being very small and too much of the tobacco is in too soft condition to bring best results.
